Location: Conference Call - USA Toll Free: [REDACTED] Access Code: [REDACTED]
Importance: Normal
Subject: Leviathan Mine - Crusher Road Slope Repair [REDACTED]
Start Date/Time: Thur 6/22/2017 5:00:00 PM
End Date/Time: Thur 6/22/2017 6:00:00 PM

...

Per U.S. EPA request:

EPA would like to discuss with Atlantic Richfield and Amec the prospect of taking actions during the Water Board's slope repair work to provide an additional factor of safety.

1. We request that Atlantic Richfield provide monitoring results from your ongoing settlement monitoring program to EPA (cc: to the RWQCB) as soon as possible during the construction
2. We would like to discuss the potential to lower the Pond 4 water level by some amount (perhaps 1 ft) to reduce the amount of impounded water that is in Pond 4 in the unlikely case of failure. Perhaps this could be done in coordination with plans for the ICT demonstration?

We would like to hold this tomorrow (Thursday 6/22) morning before 11am PDT if possible.

Please use the following information to join the call:
